### A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times. 'How can Brown's Iron Bitters cure everything." Well, it doesn't But it does cure any disease for which a reputable physician would prescribe Hida Physicians recognize 'hon as the best restorative agent known to the profession, and inquiry of any leading chemical irim will substantive the assertion that there are more preparations of iron than of any other substance used in medicale. This shows conclusively that Iron is acknowledged to be the most important factor in successful medical practice. It is, however a remarkable fact that prior to the discovery of BROWN'S IRON BITTERS no perfect ly satisfactory Iron combination had ever been found.

BROWN'S IRON BITTERS the teeth cause beadache, or produce constipation—all other Iron beadache, or produce constitution—all other iron medicines do. BROWN'S IRON BITTERS cures Indigostion, Billousness, Weakness, Dyspepsia, Maiaria, Chills and Fovers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neural-gin—for all these ailments Iron is prescribed daily. BROWN'S IRON BITTERS, however, door DRUWI SINUM BILLENS, not onre in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of cenefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the checks; nervousness disappears; functional derangements become requilar, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron modicine that is not injurious, Physicians and Druggitar recommend it.

### AMONG BREADWINNERS.

BISHOP RYAN ON LABOR AND CAPITAL.

A Notable Pastoral Letter Read at Buffalo-The Great Strike at New York Threatens to Grow-The Plukerious Denounced-Trouble in Cubo-Notes.

RUFFALO, N. Y., Jan 25. - The Right Rev. Stephen Ryan, Catholic hishop of Buffaio, has written a very strong pastoral ietier, which was read Sunday in all the churches of the diocese.

"Labor and capital," says the bishop, "the working classes and the moneyed aristocracy. may look for even handed and impartial treatment at the hands of God's Church; yet no one can fail to see where sympathy lies or to whom her heart goes out in tenderest affection. Honest and industrious work, the bone and sinew of the nation, the Courch blesses you; owns your right to combine peaceably to secure the amelioration of your condition, an equitable share of the profits of your hard labor, and just remuneration for year daily toil, to maintain yourselves and families in decency and reasonable competency, in homes where cherished children may be the comfort of their leisure hours,

"If there shall be any condemnation it can only come through your own suicidal foliv, because of the unjust principles you adopt, the unlawful ends you propose to yourselves or the inimoral means you use to attain your object. But should you, in spite of hr warning voice, fly in the face of Divine law, aim a blow at society, be carried away by anti-social, anarchial, immorai and irreligious theories, no matter by whom pro-pounded or by whom detended, you certainly mny expect the church's condemnation, swiit and sure, leaving a monument as striking as Babel's Tower on the plains of Shinar and of the supreme felly of building in opposition to the Almighty."

### Longshoremen's Strike.

NEW YORK, Jan. 25.-The longshoremen have made up their minds that they . have got to fight hard in order to win the Old Dominion strike, and are preparing to do it. The executive board of the Ocean association will not say what course will be pursued, but from other sources it was learned yesterday that it had been definitely settled that actio similar to that taken in the case of the French and Anchor lines will be taken with all the other steamship lines who insist from any cause whatever in handling Old Donanion freight. Some of the more hapeful of the men believe that the affair can be arranged with other companies without need of a general strike, but the majority three that in a few days the whole North river front will be "tied up."

A largely attended meeting of the Ea-River longshoremen was held yesterday a No. 10 South street to discuss the Old Dominiou strike. The feeling of the men was strougly in sympathy with the strikers and a resolution was adopted premising them moral and financial aid. A strike was u. tordered, but the men were granted the priv ilege of striking against any line or vessel that handles Old Dominion freight, and the chances are that many of the East River longshoremen will be on a strike before long. Much of the time of the meeting yesterday was taken up in the election of a beach walker.

The boycott of the Old Dominion company in the south is being pushed, and the Knigh. of Labor are refusing to trade with anyour. who either sends or receives freight by that line, Police Superintendent Murray, sie Police Commissioner Voight, as well as P lice Inspector Byrnes, held a consultation as police headquarters yesterday, and discussed the aspect of the expected strike of the long shoremen to-day, with a view of making per lice arrangements to meet any trouble that might arise. Capt. Gastlein, of the steamboat squad, will have eighty more me. placed at his disposal to-day. This make-150 extra meu who will patrol the river from

### The Pinkertons Dennmed.

COATESVILLE, Pa., Jan. 25. - The situation of the strike at the iron works of Charles Huston & Sons and Worth Brothers has assumed a different aspect during the past e v days. On Saturday evening several P.nkerton detectives arrived and went to the workof Worth Brothers, where it is expected an attempt will be made to resume to-day, When approached on the streets they pointed revolvers at the citizens who attempted to speak to them. Every train is being watched closely to see that mobody comes to take the situations offered at the

All day yesterday the streets were 'filled with men, and an indignation meeting of the citizens was called at the old Town Hall, That hall would not hold half the people, and all went to Market hall, whore 700 men cheered at the stirring speeches made by prominent citizens. Resolutions were adopted expressing great indignation at the course of Worth Brothers in hiring irresponsible partles to inflame the people of the borough and vicinity, and requesting the burgess and council to appoint such officers as in then judgment they deem uccessary to preserve the peace. They also requested the burgess to forbid any of the so-called detectives from appearing on the streets as officers of the law. One of the speakers dengunced Pinkerton thugs as the offals of prisons, the semm of the cities, and men who ar . too lazy to work if they get it. A boarding house has been fitted up at the mill to accom nodate the "black sheep,"

### The Coal Strike in New York.

NEW YORK, Jan. 25.-It was reported as long ago as Friday, but apparently without much foundation, that James is. The run or could not be trace ( to a responsible source then. However, a Conservative Knight of Labor said that something or other of that kind is going on, but he could not tell exactly what. This resolution, presented by the International Boatmen's union. was adopted by the Coutral Labor union Sunday:

### TO / BOLISH HANGING.

### The Work of the Empire State Capital . unistanent Commission.

BUFFALO, N Y., Jan. 25 -The report of the capital punisament commission will b. presented to the logislature on Tuesday hext. Mr. Ge ry, who has been in Europe for som. time, calded his coal jutors that in case be could not return in time to confer with them they should make a preliminary report and ask for further time.

ber of the commission, left or Albany Saturday to meet Mr. Matthew Hale, the third member. B fore his departure Dr. Southwick was asked what the result of the com-mission's labor would be. He replied: "The weight of opinions xpressed in the replies received by the commission in the circular sent out to prominent lawyers, judges and others in the state, asking their views on the subject, is against hanging and in favor of elect icity. The report, therefore, will be in favor of the adoption of some electrical apparatus for excutions. That is the end toward which I have been working for six years, and if the report of our commission does not culminate in the passage of a bill abolishing hanging, I shall begin to think that I have been working in vain. I have noticed that the hill introduced in our leg slatu e last year was copied in Paris, and a similar one was introduced by a Frenchman in the legislative body of France. Germany has taken up the question, and I have just read that in New Jersey attention has be n called to our agatation of the matter. I wish that the Empire state would take the init ative in this step toward a broad humanity. The only argument that can be brought in favor of lininging is that of its deter ent effect, but I m cintain tla. a p i dess centh would have just the same influence upo society if it were accomplished in s cret The prisoner will be confined in a state prison and be removed from life painlessty and se cretly, without the hurrah and sensation that attends a hanging."

### PERILOUS LEAP FOR LIFE.

A MAN JUMPS FROM A THIRD STORY WINDOW.

Great Hernism of a Janitor-He Rescues a Woman-1wo Perilous Trips Up a Burning Staircase - Spectators Show Great Presence of Mind.

CINCINNATI, Jan. 25.—Early morning pedestrians, as they passed through Fourth street, between Walnut and Maine, shortly before 7 o'clock, were treated to a most thrilling occurrence. Their attention was first attracted to the real estate office of Robert J. Cresap, at No. 18 West Fourth, by the clouds of smoke that rolled from the door and windows. As they looked a bareheaded man dashed from the flery interior into the street. In his arms he here the half fainting form of a woman. Calling on those Dr. Southwick, of this city, another mem- to take charge of her, he turned and sprang back into the burning building.

The drowd stood aghast, as it seemed almost certain death. After a moment had passed a window of the third floor was flung up and two men were seen struggling ainld the smoke. One was the man who had rescued the woman. The other could not be recognized. With a powerful effort the rescuer was thrown off and a terror stricken man dressed in his night attire, crawled out the window and hung from the sill.

The situation was painful and many turned away. But there were cool heads among those present. With rare presence of mind two brave men sprang forward and seized a hoard used to hold printed advertisements. Standing under the clinging figure they shouted, "Dropl" The desperate man looked from side to side as if for relief and then released his grasp. As he shot down a convulsive shudder went through the crowd.

With a crash the ralling man struck the iron awning frame. For an instant he seemed to rest. Quick as a flash the men with the board sprang directly beneath the falling framework and cangut the unfortnnate man as he whirled over and dropped to the sidewalk. He was received directly on the board, but his weight and the impetus acquired by the fall tore it from their hands, allowing him to strike the pavement, As they lifted him from the sidewalk the man who had so bravely attempted to save him again emerged from the blinding smoke that filled the building perfectly unharmed.

In a moment the situation was explained. The man who had leaped from the window was Robert J. Creeap, the well-known auctioneer and real estate broker; the rescued woman was his wife, a bride of three months. and the rescuer was Frank C. Frazer, the janitor. Mr. Cressp and his wife were surprised in bed by a sudden fire, and the former had lost his presence of n ind. The fire began on the second floor, immediately beneath Mr. Cresap's apartments, and originated in the catching fire of a wooden partition from a heated stovepipe which passed through a small opening in it.

the district show that this recent freeze and | prompt action, he sprang un the hurning thaw injured the wheat very little, farmers, staircase and into the bedroom. Here he found that Mrs. Cresap had arisen, but was but partially dressed. He seized her and dashed downstairs, with the intention of returning for Mr. Cressp. When he returned that gentleman had left his bed, but was perfectly frantic. Frazer seized him, but the night shirt he was graspling gave way, and Cresap made for the window. He then turned and saved himself.

Mr. Cresap and his, wife were taken to the Good Samaritan hospital. Here Mr. Cresap's injuries were found to consist of a badly jarred system, and a sprained back and arm. His hip, where it had come in contact with the awning, was badly hruised. His injuries will confine him to his room at least a week.

But for the awning and the board hreak lng the 'orce of his descent, Mr. Cresap would undoubtedly have sustained fatal in juries. He has been occupying the present quarters over his office about three mouths. having given up his suhurban residence of Walnut Hills.

At noon Mr. Cresap was ln great pain and hle back was hurting him badly. It is now feared that his spine has been injured, i. this is the case the worst results may be ex-

His wife was suffering from a nervous shock, but was in other respects unharmed. The hero of the thrilling affair was, of course, the janitor. He was warmly congratulated on his bravery, and received his honors very medestly.

The building in which the fire occurred ibadly scorched and charred. In addition to Mr. Cresap, James H. Wallace, the Campbell Creek Coal company, and Brasher & Wueltkotter, surveyors, occupy deskn on the lower floor. The loss in aggregate will amount to between \$1,200 and \$1,500. All

Swore He Would Kill Him and Dbl. LITTLE ROCK, Ark., Jan. 25. - Advices from Calheun county say that a negro desperado, thought to be Louis Simpson, was killed twenty miles east of Hampton, Saturday. The negro was chased by two men, and had taken refuge in a deserted but, where he kept his pursuers at bay for hours. The men at length set fire to the hut, and when the negro ran out of the flames called on him to surrender. He refused, and was riddled with bullets. In 1885 Simpson was sentenced to ten years imprisonment for murder. The chief witness against him was a negro name." Copeland, and Simpson swore he would kit. him. Two years after, Copeland, who was a pected. member of the police force of this city, was found dead, having been shot, luvestigation showed that Simson, who was working on a contract outside the prison, had killed Copeland and escaped.

### WEEKLY CROP SUMMARY.

### A General Report of the Condillon of Wheat at the I resent Time.

CHICAGO, Jan. 25,-The following crep summary will appear in this week's l-sue of the Farmers' Review: The heavy rain which set in on the night of January 21 prevailed throughout nearly the entire winter wheat belt, and resulted in laying bare wheat fields over large areas. Without second covering of snow the crop is in a certain amount of peril, but up to the close of January 22 the correspondents have made no returns of resulting damage. The wheat reports from Ohio, Indiana and Michigan continue to be almost uniformly favorable, the latest re-turns showing that the fiel is have been amply pretected up to the approach of midwinter rainstorm, and that the grain was looking well.

The reports from Missourl and Illinois are not uniformly favorable, some of the southern Illinois and some of the western Missouri counties reporting an unfavorable ontlook. The returns from Butler, Chautauqua, Cherokee, Johnson, Lyon, Pottawatomie, Saline and Wallace counties in that state show that fields are not protected and that the grain is looking poorly. Clark, Clay, Dalias, Delavan, Harrison, Jones, Muscatine and Warren countles of Iowa are importing corn at 33@40 cents per bushel.

### CHARGED WITH POISONING.

### Strong Circumstantial Evidence Developed Against Lawrence Krag.

CHICAGO, Jan. 25 .- It is now certain that Lucy Heidelmeyer was poisoned. Professor Hatues, of the Russ Medical college, has completed a chemical knowledge of her stomach. He found traces of arsenic in every vital part. it was administered in such lioeral quantities that the only wonder is that the girl lived as long as she did. Capt. Schaack has also ascertained that lawrence Krug, the girl's stepfather, who is being held to await the result of the investigation, lived for a long time with a celebrated chemist in Germany, and there gained an extensive knowledge of the deadiy qualities of the various poisons.

Saturday Professor Haines began an analysls of the remains of Krug's third wife, which was exhamed for that purpose last Thursday. The officers think they have a strong case of circumstantial evidence against Krug. The inquest on the step-daughter will be commenced this week, and inquiry redoubled as to the four other deaths charged against Krug. He has authorized the sale of two houses belonging to him in order to raise mouey to defend himself in the criminal court.

### stenry George Coming West.

CINCINNATI, Jan. 25 .- It has been intimated that Henry George will not attend the February 22d convention here begause he is opposed to the basis of ropresentation. From private information received in this city it is known that Henry George is anxions to visit , the west and deliver a few lectures. Such a tour will make friends for him and his paper -the Standard. From what can be learned he will time his journey west so as to reach our city during the convention, and perhaps Frazer had just built the fire in it, and was address the grand assemblisge, if the outlook engaged downstairs in the lower office when is satisfactory to him. It is known that he he smelled smoke. We are almost led to prostrate ourselves in the dust before the awful presence of their towering minds, but we will try to refrain from doing so, just at present.

We haven't any apology to offer for the articles that attracted the special attention and criticism of the two egotists, simply for the reason that none is necessary. We make make no pretensions to ability and all that,-Messrs. Thomas A. Davis and J. Hartshorne Hill are the only able newspaper men in town,-but in order to show that the articles referred to are not so very deserving of our contemporary's ridicule and sarcasm, we give a few comparisons:

lleury M. Slanley lott London yesterday on the most import-ant expedition of his Il'e.-Cincinnail Commercial Gazette.

The entire absence of anything brilliant in the Times and Commercial Gazette's editorials must be attributed to the fact that they haven't on their staff two such "brilliant journalists" (?) as are at the head of the Republican. We suggest to Mr. Halstead that he at once discharge feet. The ice started again early this morn-Romeo Reed and employ Mr. T. A. D. or J. Hartshorne Hill.

Let us carry the comparison further. In the following are two elippings from the BULLETIN that seemed to attract the special ridicule of these two intellectual giants. Their sarcasm was poured out in extravagant quantities, all because these two notices had found their way into the editorial columns of the Bulletin:

Dr. F.A. Davisisnow managing editor of the Bulletin of the Kenlucky Buile-tin, Messrs. Gonid and Zimmerman having retired.—Bulletin.

The Kentucky Builetin, of Newport, New St. Maxon's paper, has been victimized for \$150 by one of its lifed so icitors.—Bulletin.

LETIN. What a brilliant thought it was in our egotistical confemporary to allude to the "solicitor and collector" as a rascally fellow. Who ever heard of a "solicitor and collector" who got away with his employer's cash as being anything else but a rascal? There may be some swindlers who are not rascally in their nature, but the fellow who victimized Brother Maxon isn't one of them evidently, else Mr. Davis or Mr. Hill would never have spoken of him in the way they did. They probably wanted their readers to know that this swindler wasn't an honest fellow, but a rascully individual. And then what a brilliant thought it was in them to add: "This may account for the withdrawal of two out of three of the editore of that paper." .The entire absence of anything "able" or hrilliant in the shove editorial from the Republican leads us to believe that it wasn't penned by these two intellectual giants, but that it was gotten up by the Republican's devil and slipped into the paper unbeknownst to the late "sole owner" and his recent acquisition from Louisville.

Services at the First Baptist Church. The pulpit at the court house Sunday was again filled by Rev. J. G. Bow. The sermon in the morning from Hebrews 4th, and 9th, "There Remaineth therefore a incentive to christian activity. There and become a respectable citizen. was one addition at the close of the sermon. At night the honse was crowded, chairs in the aisles and many turned away. The service opened with "Arise and Shine." May God's people continue to sing "Arise and Shine" till the "Day Star" shall arise in every heart. The dnet "Heavenly Love," sung by Mrs. Julia Pearce Cummings and Mr Will Southerland was Iruly a foretaste of heavenly love, while Miss Lottle McDaniel's solo, "Resignation," was the breathings of a soul filled with submission and love to a Heavenly Father, expressed in song. Mr. Knoll's solo was fine in the extreme, and just a word here to those who do not think instrumental solos just the thing in church. If there is not something inspiring in Instrumental music, why do they have martial music when marching to battle, or play the Star Spangled Banner on the Fourth of July occusions? The hible says "praise the hord on the cornet," and we are sorry indeed that we can not have Mr. Knoll longer to join us in praising him 11.

### Ice Gorge in the Maumee.

Toleno, Jan. 25.—The warm weather last week started the ice in the Maumee Saturday, about iffteen miles above the city. No fear was felt till yesterday afternoon, when the river broke up and the lee started rapidly. It gorged last night and the water rose eight lug and took away the approaches to the Pennsylvania and Union bridge. The Wheelling & Lake Erle bridge was rendered useless, and the lumber district and the Lake Shore and Cincinnati, Hamilton & Daytou freight yards are cut off. One tug broke loose, but was not damaged. There is a tromendous gorge at Rock Bar, eight miles up, where the ice is piled up twenty-seven feet and more ice coming down. This Is liable to give away, and when it does all the bridge will be swept away and the lower streets and flats flooded.

### Territic Boller Explosion.

PITTSBURO, Jan. 25. - One of the bollers at Spangs' irou mill, at Sherpsburg, six iniles from this city, exploded at 5 o'clock this morning, histantly killing the lireman, James Patterson, fatally burning an unknown tramp who was sleeping in the boller room, and seriously injuring six mill emloyes who had, just arrived to begin their day's work. A portion of the holler was thrown over 200 feet. The entire end of the mill was blown out and the building so shattered that it will probably fail. The cause of the explosion will be investigated. Another employe was badly burned in shutting off the natural gas, with which the mill was supplied. Had the accident occurred a few minutes later the loss of life would have been terrible, as all the employes would have then been at work.

### Dissipation Under the Empire.

A Paris head waiter thus unbosomed himrelf to a journalist during the wild orgies under the empire, when the Cafe Anglais and the Maison Dores never closed their doors from year's end to year's end:

"One 'set' never lasts more than five years; ln fact, you'd be surprised how rapidly the 'high livers' and 'thiners' succeed each other. Tho last lot were wound up ln six months. The Viconite de Talloyrand dled after marrying a chlt of a girl to whom he insisted on giving his name. His family opposed the match and the consequent grief and vexation killed him. Baron d'Anrial soon went the journey. He poured so much wine down his throat that the waiters said he died of 'Inflamuation of the Bordeaux.' M. le Comte de Z--- ls now an assistant at a wayside railroad station in the south of France. M. Raoul de Menlisted; he's in Africa. The Marquis de T-, utterly ruined, plays the horn ln a concert garden at Rhelms at three francs a night. A few days ago M. de Saint Lahire's 'set' too't possession of No. 16. There are ten of them who will manage to live on the young helrs from Brittany and Anjou who come to Paris to spend their fortunes. Then the whole lot will go by the board, as so many have gone before them. Others will tako their places and so the game will go on until the next revolution,

And the waiter added: "Out of every ten of these roysterers two will shoot themselves, four will die completely used up, three will Rest for the People of God," was a great land in prison and the tenth will go to work

"And how about the women?" "Oh! we've had the same women for the last twenty years!"-Paris Cor. New York

[Modernized and adapted to this latitude and time of the year, by Clarence L. Stanton ]

A young man to Ohlo bound, Ciles " Boalman do not tairy, And I'll give thee a silver dime

To row me o'er the terry. "Now who be you, would cross this stream

This swift and muddy water?" \*Oh, I'm a gay young gamboller, At Poker I'm a snorter."

Out spoke the hardy ferry man: "I'll go, my hoy, I'm ready; It is not for your silver hright. But your respected daddy."

"I here will say, my reposter gay, In dauger shall not tarry, For though the storm is raging wild I'll row thee o'er the ferry."

"Oh, haste thee, haste," the young mancries. "Though tempest round us sporting, I'll meet the raging of the skies,

But can't go Circuit Coniting." And as they salled amid the roar Of elements a fussing,

The Sheriff reached the ferry float And stopped to do some enssing. For sore dismayed, through storm and shade, The young man dld disclose,

His good right hand was stretched aloft And wiggling from his nose. "Come back, come back," the Sheriff cried,

A cross the stormy river, And lend the jury-men your ald The 'flger' to unklyer."

But vain, the loud waves lashed the shore, And circumstance preventing, He dldn't come back worth a cent, And he was left lamenting.

PLANS WHICH GIVE AUSTRIA A MIL-LION MORE SOLDIERS.

A Plea for the German Government Made at Hanover-Buried in Solid Rock-Still Fighting in Tonquin-Hopes of a Liberal Union-Other Foreign Affairs.

VIENNA, Jan. 25. - It is estimated that the landsthurm would supply 1,000,000 additional men to the army. The regulation appended to the decree relative to the landsthurm directs that if the men are summoned before uniforms are received they must wear insigna consisting of yeilow and black arm bands and hearing the number of the regiment to which they belong.

It is further ordered that each man must provide himself with a metal case in which to keep papers by which he may be identifled. Men wearing their own clothes shull be allowed, ten kreuzers dally. These instructions to the Landsthurm are regarded as indications of au early campaign and cause disquietude.

Buried in Solid Rock.

LONDON, Jan. 25 .- A funeral of remarkable character is reported from Hawes, in North Yorkshire. The deceased was a Mr. J. S. Broderick, a well-known and wealthy follower of Epicurus. He believed in the transmigration of souls, and in his dying moments gave instructions that no minister should attend his funeral and that there should be no religious ceremonies of any kind. The interment took place in his own lands, on the top of a hill. To reach the place the cortege had to pass over a portion of the Pennine range of hills, and as the road was blocked in 'places by snowdrifts over twelve feet deep, the mourners had a dreary and difficult task. The immediate place of sepulchure was very rocky. It had been chosen by the deceased and blasting operations had to be carried on for two days and nights to complete the grave, which was forty feet below the surface in the soild rock. A Pea for Germany.

BERLIN, Jan. 25.-Herr Benningsen ad-

dressed several thousand National Liberals at Hanover yesterday. He urged that the passage of the Septennate bill was the only means of avoiding war. He declined to admit the assumption that the government might use a majority to force monopolies on the country. Resolutions in favor of cooperation with the Conservatives were unanimonsly adopted.

The Berlin Z stung urges the German govalarming the commercial world.

### A Paule in London.

LONDON, Jan. 25. - There has been a semi-panic in the stock market this afternoon in consequence of the unfavorable aspect of the political situation. Consols for money closed to-day at 100 7-16, a decline of % from the closing quotations Saturday. The quotation at to-day's close for the account was 100 9-16, a fall of 5-16 from Saturday.

A Shipwrecked Crew Saved.

LONDON, Jan. 25. - The Ailen line steamer Prussian, from Boston, January 11, for Glaslanded the crew of the British steamer Nettuno, which was abandoned while on a voyage from Sunderland to Baltlmore. When the Nettuno was abandoned her rudder and stern post were gone.

A Trumped Up Story

Paris, Jan. 25 -Meyer, the alleged German spy, who escaped at the time of the capture of his two companions at Lyons, has been arrested. All three insist that the soldier who accuses them trumped up the story that they tried to bribe him to obtain for them one of the new French repeating rifles.

Negotiations Still Pending,

LONDON, Jau. 25.—The Standard says that in the agreement with the Vatican now in process of negotiation Prussia assents to the return of members of all religious orders except the Jesnits, who were exiled by the imperial iaw. Regarding other points the negotiations are stid pending.

Hopes of a Liberal Reunion.

LONDON, Jan. 25. - The Daily News says the recent speeches of Mr. Chamberlain and Sir George Otto Trevelvan have cleared the political atmosphere and brought hopes of a Liberal reunion within measurable distance of fulfillment.

Governor of Crete Recalled.

LONDON, Jan. 25 .- Turkey has recalled the governor of Crete, owing to the opposition of the people to his administration, and has, appointed Authopulus Effendi, a more popnlar man, to replace him.

Still Fighting in Tonquin.

Paris, Jan. 25.—A dispatch from Ton-quin says that Col. Brissaud has carried the rebel position at Mikae Than-Hoa and that 500 insurgents were killed. The French were pursuing the rebels.

Trouble in the Canadian Cabinet.

OTTAWA, Ont., Jan. 25 .- Quite a sensation has been caused here by a rumor to the effect that the recent disturbances in the cabinet were due to Sir John A. MacDonald's overbearing temper, which, it is alleged, has much increased of late years. It is even darkly hinted that the premier, with increasing age, is losing the balance of his mind, and that this has been manifested on various occasions, but more particularly in the privy council. Some of the cabinet meetings have, it is alleged, been most stormy and a cilmax was reached when Sir John McDonald and Sir Charles Tupper, the high commissioner for Canada, shook their fists in each others's faces. Sir Charles also has a hot temper, and this incident is reported to have occurred just prior to his recent visit to England. Another aileged proof is that the premier's vanity has increased to an almost ridiculous extent of late, and that the recent defeat of his party in the provincial elections in Ontario, after his strenuous personal efforts recoiled upou him with redoubled force. The report which has been published in several Canadian papers has caused considerable public aiarm.

"I want something to cure my cough. I have tried our doctor, and almost every proprietary medicine I ever heard of, but nothing seems to do me any good," a lady said to the clerk in a large drug-store.

"Gooch's Mexican Syrup gives the most general satisfaction of any thing we have ever sold, and is pronounced by some of our most prominent people to be the best remedy for coughs and lung troubies ever put upon the market. We sell more of it than all other cough remedies put together. You see our customers risk nothing in buying, as the proprietors authorize all druggists to guarantee it; so if this does not give you satisfaction, we will refund the money. It has made some remarkable cures." he replied,

Consumptives, because all other things fail, believe not that Gooch's Mexican Syrup will. CONSUMPTION CAN BE CURED. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what Gooch's Mexican Syrup does: It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It controls Coughs, Night-Sweats, and all other symptoms of consumption. GOOCH'S MEXICAN SYRUP HAS CURED THOUSANDS AND IT WILL CURE YOU. This remedy is pleasant to the taste, and may be given to children with perfect safety. It affords immediate relief. Ctergymen, lawyers and other public speakers will be greatly benefitted by using this remedy to clear and strengthen the voice. This medicine is prepared and every bottle warranted by CINCINNATI DRUG & CHEMICAL CO., 54 Main Street, Cincinnati, Ohio. For sale hy all druggists. 50 cts. per bottle. If your medicino dealer hasn't it and won't get it for you, send us 50 cents and we will send a bottle expressage prepaid to any part of the U. S.
